

Continuing Competency Program for Naturopathic Practitioners in the NWT

Continuing Competence Programs (CCP) are registration mechanisms to support the regulated professional in maintaining their competencies and skills as a professional service provider throughout the life of their registration. Continuing Competence Programs promote high standards of care, ethics, and professionalism and are mandatory for regulated professionals, as established by the applicable profession legislation, and enforced by the Registrar, Chief of Profession Regulation. The following is a snapshot of your CCP requirements and what they include. You are required to maintain a logbook to track activities and hours to produce in the event of an audit.

The CCP requirements for Naturopathic Doctors includes:

General Naturopathic Doctors	Naturopathic Doctors, Expanded Scope
