**Title:**

**NWT Clinical Practice Guidelines for the Treatment of Uncomplicated Chlamydia - Amended**

**Effective Date: April 2019**

**CPI # 151 supersedes CPI #115. All previous versions of the Clinical Guidelines for the Treatment of Uncomplicated Chlamydia must be discarded immediately and replaced with the attached document.**

**Statement of approved Clinical Practice:**

The attached guidelines are based on the Canadian Guidelines on Sexually Transmitted Infections (CGSTI), published by the Public Health Agency of Canada (PHAC), as the approved standard reference for sexually transmitted infections in the NWT. <https://www.canada.ca/en/public-health/services/infectious-diseases/sexual-health-sexually-transmitted-infections/canadian-guidelines.html>

Updates to the previous version include the following:

- Lowering the threshold for treatment of contacts
- Clarifying the “test of cure” (TOC) recommendations
- NEW! STI Patient Teaching Tool:  
<https://www.hss.gov.nt.ca/professionals/sites/default/files/stbbi-teaching-tool.pdf>

**Attached:**

- NWT Clinical Practice Guidelines for the Treatment of Uncomplicated Chlamydia Infections (2019)
- STI Patient Teaching Tool (2019)

An electronic copy of this notice is available on the Department of Health and Social Services Health Professionals' website at:

<http://www.professionals.hss.gov.nt.ca/document-categories/clinical-practice-informationnotices.>

This clinical practice is approved.
