

Facility-Based Addictions Treatment (FBAT) Program Renascent Client Handout

Keep this Handout with You During Travel

It has important information you may need during your trip.

Facility Name	Renascent
Address of Facilities	Munro: 356 Dundas Street W Toronto, ON Madison: 54 Madison Avenue, Toronto, ON Sullivan: 90 Colston Avenue, Brooklin, ON
Phone Number for Facility	(866) 232-1212
Upon arrival at Pearson or Billy Bishop's airport, you must call Renascent car service at: (416) 230-8383 to arrange pick-up. You and your case manager must ensure you have a way of calling the car service when you arrive at the airport.	

ID

- You must have ID that is valid for the entire time you are in treatment.
- You will need this ID to board your flight to leave the NWT, and again when you fly back after treatment.
- Keep your ID somewhere safe. You will not be able to fly without it.
 - If you lose your ID while you are away and cannot travel home when your program ends, you will need to provide accommodation, food, etc. for yourself in the south until you replace your ID or find a way home.
 - If you get new ID, the FBAT program can then provide a flight home.

Escorts

Escorts are not permitted for travel to or from Toronto.

Luggage (suitcases/bags)

- You can check two suitcases on your flight.
- Be ready to pay for your suitcases (approximately \$50 per bag) at the airport because baggage fees may not be included on your ticket. You can apply to medical travel to reimburse you for up to two bags.
- You or your case manager can ask medical travel to pre-pay for your bags, but this is not always possible.
- Your case manager can help you apply for a weekly allowance while you are at treatment. You can save some of this to help pay for bags on your return flight.

Early/Unplanned Discharge

- You and your case manager must always plan in case you leave treatment early. This could happen if:
 - You choose to leave early, or
 - The facility asks you to leave because you are not following the rules or not participating in the program.
- If you leave early, you cannot stay at the facility, even if you have no housing.
- Things can change quickly- that is why it is important for you to plan with your case manager before you go to treatment.

Important Contacts: In case of an emergency, I can contact the following:		
	Name	Phone Number
Case Manager		
Family/Friend or Emergency Contacts		
811- Non-Emergency Health Line in Alberta & Ontario

Location	Phone Number
All regions except Beaufort-Delta	867-669-4115, Option 3
Beaufort-Delta	867-678-5626

Note for individuals travelling to Toronto:

- The facility is located outside of Edmonton, where there are no boarding homes for NWT residents.
- It is important to be ready for possible delays due to weather/cancelled flights.
- If your flights are cancelled outside of the NWT or Edmonton area, Medical Travel will arrange a hotel stay and rebook any cancelled flights. They will also try to book a hotel that offers free airport shuttles.

Client Acknowledgement: (Filed with application, signed prior to receiving travel arrangements)

I understand that:

- I need ID that is valid for the whole time I am in treatment. I need this to get on the plane.
- If I lose my ID(s) while at treatment, I am unable to get on a flight home.
- If I lose my ID(s) and cannot travel home, I will need to provide for myself in the south until I can replace my ID or find a way home.
- My flights are booked at the lowest cost and most direct way. I can't ask for extra stops or make personal travel requests.
- Flights can't be changed after they are booked.
- I can take two suitcases, but I may have to pay for them at the airport and be reimbursed.
- I can only stay in a hotel or boarding home if it is needed between flights as part of my medical travel.
- If there are flight delays or cancellations (for example because of weather) I may need to pay for food, taxis and other costs myself.
 - a. I can ask medical travel for reimbursement (up to \$18/day for food).
- If I move away from the NWT and/or establish healthcare in another province or territory, my return travel home will not be funded.
- I cannot stay at the treatment facility only because I don't have housing. If I ask to leave early, or am asked by the facility to leave, they will not provide housing.
- I have the right to share feedback on my experience with the FBAT program. The most direct way to do this so the FBAT program can follow up is:
 - a. Speak to my case manager who can share my experience with the DHSS Manager.
 - b. Contact the DHSS Manager directly at resaddictionstx@gov.nt.ca

Important Travel Checklist

- Valid** NWT health care card
- Valid** government issued ID (one photo ID **or** two non-photo ID)
- Snacks and/or money for food - medical travel does **not** provide money or "vouchers"
- Cell phone or money for a pay phone
