Section 6: Inspection Details

Act and Regulation excerpts in this report are for information only and not the basis for legal or judicial determinations. Please verify the most current version of the Act and Regulation for correct sections and wordings.

12. Use and Availability of Thermometers to check and monitor food safety temperatures

Observation: The refrigerator used on site is not equipped with a thermometer. The operator was provided with a thermometer. Use the provided thermometer to check storage and internal food temperatures.

Correct-by Date: 04/30/2024

19. Food is labelled, handled in sanitary manner, and protected from potential contamination and adulteration

Observation: Storage cabinet used for storing food and non- food items had chemicals stored on top of food items. Ensure all food is protected from and free from contamination and adulteration, and is fit for human consumption. Move food items to the top shelves and chemical to the bottom shelves or find a dedicated storage space for all food items.
